

OhioHealth Skilled Nursing Facility Continuing Care Network

The Convalarium of Dublin participates in the OhioHealth Skilled Nursing Facility Continuing Care Network.

The OhioHealth Skilled Nursing Facility Continuing Care Network is a network of Medicare-certified nursing facilities selected by OhioHealth to work toward the goal of delivering high quality care while leveraging our combined clinical expertise.

As part of the OhioHealth Continuing Care Network:

- We work closely with OhioHealth with the goal of providing you with the best possible quality of care after you leave the hospital.
- We will meet certain quality and performance standards.
- We will continually demonstrate high quality by meeting identified service standards.

Nonparticipating facilities do not have these requirements.

Benefits for Patients

The Convalarium collaborates with OhioHealth with the goals of:

- Creating a smooth transition from your OhioHealth hospital to our facility.
- Coordinating communication among everyone involved in your care, including your physicians, you and your family, the hospital and our facility care team.
- Giving you peace of mind that everyone is working toward providing you the best possible care plan with the goal of getting you better faster.
- Using best-practice clinical protocols to direct your care, consistent with the care you received at OhioHealth.
- Helping reduce the chance that you would need to go back into the hospital due to complications arising during your recovery at our facility.
- Helping you get well enough to safely and confidently return home.
